Why you need Blood Donation camps?

- Every year our nation requires about **4 Crore units** of blood, out of which only a meager **40 Lakh units** of blood are available.
- The **gift of blood** is the **gift of life**. There is no substitute for human blood.
- Every two seconds someone needs blood.
- More than 38,000 blood donations are needed every day.
- A total of 30 million blood components are transfused each year.

Well done folks!!!! That was a great gesture!!!!
