

Workshop on Balance Sheet Analysis  
8<sup>th</sup> January 2016

The balance sheet provides a 'snapshot' of an organization at a particular point in time. It indicates the organization's financial strength, providing information about what it owns (assets), what it owes (liabilities), and the 'book value' of the business. Ratio analysis can also be performed on the balance sheet in order to gain valuable insight into the organization's performance.

Workshop on Balance Sheet Analysis conducted by MPBIM was a step towards furthering this understanding. The workshop had a participation of 38 from over 29 colleges in Bangalore, Mysore and Chikkaballapura.

**The workshop covered** importance of financial measures, financial accounting and management accounting in the first session. The second session covered the key components of the Balance Sheet, Fixed Assets, current assets – what they are, and how to improve, Current Liabilities – what they are, the vital importance of Working Capital management and also about Gearing. Balance Sheet performance including calculating and interpreting key ratios under different business contexts with case studies were covered in the programme which concluded by 4.00 PM.

This workshop, an initiative of MPBIM's IQAC was conducted by Dr. S Sathyanarayana Associate Professor, Finance and Dr. R. Deepak Asst. Professor both of MPBIM.
