A BRIEF REPORT OF WEBINAR  
"NATIONAL EDUCATION POLICY – TRANSFORMING HIGHER  
EDUCATION IN INDIA A RESEARCH ENABLED KNOWLEDGE ECOLOGY"  
Held on 2<sup>nd</sup> July 2022 at 10:00 A.M

-----

M.P. Birla Institute of Management along with IQAC organised a webinar on Transforming Higher Education in India: A Research Enabled Knowledge Ecology on Saturday, July 2, 2022 jointly with Southern Economist. The key speakers were - **Dr. Chetan Singhai**, Chief Consultant, Technical Secretariat, National Curriculum Framework-2022, MINISTRY OF EDUCATION, GOVERNMENT OF INDIA and Deputy Director, Ramaiah Public Policy Centre and **Dr. Latha KC**, Education officer, UGC, South western Regional office, Bangalore.

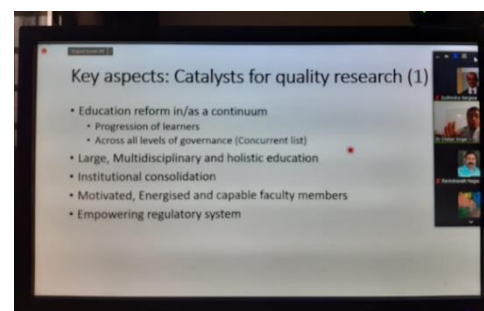

Er. N Ramanuja, Chairman, MPBBIM, set the basis for the webinar by touching upon the criteria behind every learning system and the basis of creating a positive research thrust under NEP and creating an urge for undertaking research at an early age. He also spoke on creation of a research ecosystem under the stewardship of the National Research Fund (NRF). Which would provide seeding, funding, coordinating, and monitoring research and innovation initiatives that would boost research in educational institutions. The emphasized on a multidisciplinary approach in education and the need to nurture a curious and creative mind with a view to develop analytical and critical thinking abilities at an early age.

Dr. Sathyanarayana briefed on the objective of the webinar clearly bringing about objectives of NEP and Research.

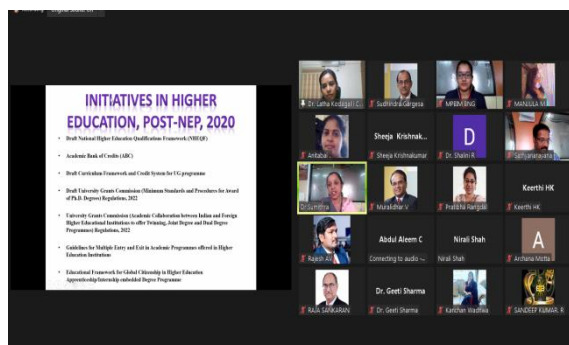

Drawing analogy of Mackintosh computers of Apple where they hired computer scientists who were also artists, Dr. Chetan Singhai, in his talk during the first session, began by bringing the creative aspects of human being which plays a great

role in conceptualising and ushering innovations. On creating an eco-system for research, he elaborated on the catalysts of quality research brought in by institutional autonomy, integration of technology, enabling innovation and integrating higher education system besides internationalisation at home.

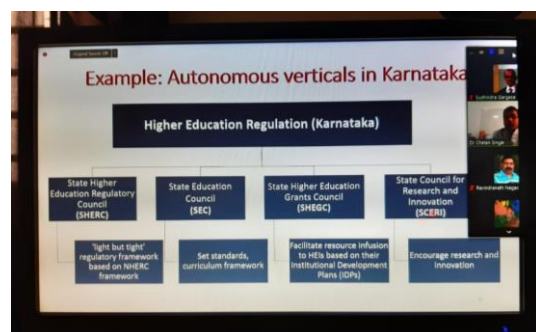

He pointed out that education needs to be a large multi-disciplinary and holistic. The learning needs to be augmented by motivated energizes and capable faculty members.

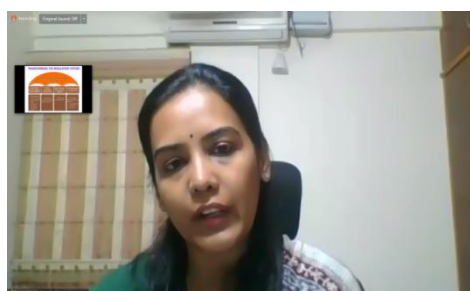

Emphasis on research must start right in UG programme. Through a proper credit system, there should be time for research. The teaching and learning need to be backed by research. Students could undertake research internships. On the initiatives in Karnataka, he delved in to autonomous verticals in the state, the system of

NEP oriented higher education regulations which would boost research and innovation. He said a four-year system for UG programme would greatly encourage research and has paved way for focussed institutions on research intensive, teaching intensive and degree granting institutions

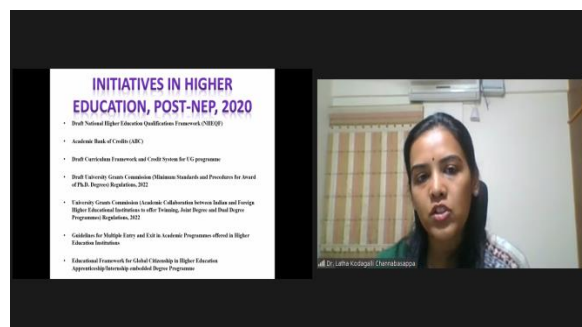

He explained the policy objectives on NEP 2020 to create a conducive ecosystem for research through competitive peer review funding, mentoring and facilitating besides establishing to Fund such research programmes.

In the second session **Dr. Latha K C** gave a insight into objectives of the NEP and explained how NEP would positively impact learning process in the country bringing about transformation of the regulation system and bringing synergy in the education institutions of the country and also education institutions overseas.

Speaker elaborated on restructuring and initiatives in Higher Education post NEP which would cover Higher Education qualification frame work, Academic Bank of Credit with a freedom to learn at different institutions, Standards for PhD programmes, academic collaboration between higher education institutions to offer twinning programmes, joint degree programmes, etc, apprenticeship/internship embedded Degree Programmes. She explained the

concept a 4-year graduate programme which would give an option for the students to dropout at the third year and also continue research in case they decide to go for 4<sup>th</sup> year.

The programme would give independence to the teachers to design their curriculum or improvise over curriculum to make the teaching effective. This would mean a greater autonomy for institution and teachers as we see in many foreign universities and educational institutions. There would have be proper accountability on the part of institution and teachers.

She presented a road map planned for bringing in the transformation till 2040 where HEIs would be totally multidisciplinary institutions with over 3000 enrolments with a target of exposing 50% of learners to vocational courses. This would however mean appraising the students of the advantages of proposed system so that they get the planned benefits.

Dr. Sathyanarayana summed up the proceedings and gave the concluding remarks.

The webinar was well attended by 127 participants comprising of professors of various universities, practitioners, research scholars and administrators. A total of 127 participants took active part in the webinar. It is gratifying to note that besides Bangalore, many of the participants were from other parts of Karnataka (33 participants) and Tamil Nadu (5), Gujrat (5), Jharkhand (5) Delhi (4), Haryana (2), Andhra Pradesh (2), Uttar Pradesh (2), Telangana (2), Orissa (2) and one each from Bihar, Himachal Pradesh, Madhya Pradesh, Tripura and West Bengal. Further five participants from Africa and one each from Canada and Nepal were also taken part in it.

Proposing Vote of thanks **Student Executive Ms. Ranjitha** thanked the speakers for their brilliant exposition of the topics. She thanked the participants for their enthusiastic and proactive participation, making the webinar a success.

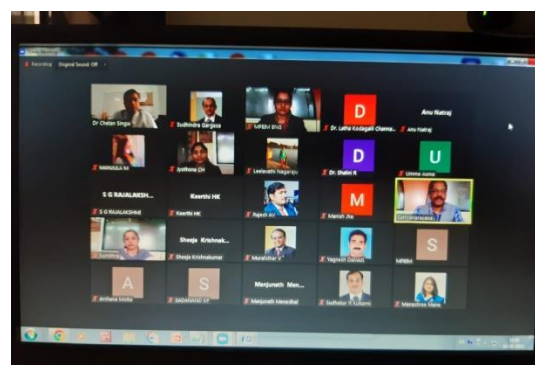

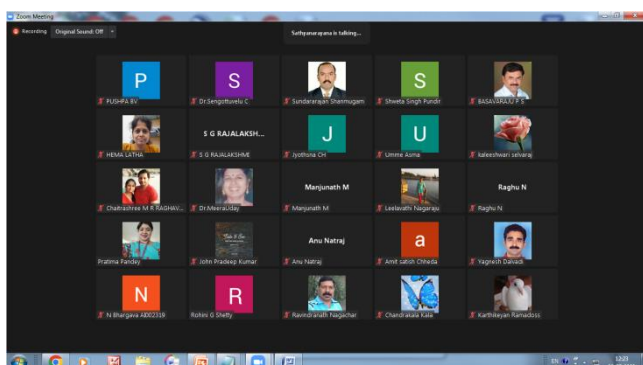

The undersigned wishes to express indebtedness to Chairman, for agreeing to inaugurate the event and for his valuable guidance. He would also like to thank **Sri. V Muralidhar, Director, MPBIM**, for his unstinted support in conducting the event.
